

Accreditation Thoughts

Notes by J.H.Davenport

11 September 2019

Note <https://hbr.org/2019/08/every-computer-science-degree-should-require-a-course-in-cybersecurity>

1 Possible Questions for Paul to ask Seoul 8+6

0. By CyberSecurity we include what might be called “Information Security, IT Security etc.”, in fact security aspects of Computing as characterised in footnote 1 of Appendix D.
1. Is there any CyberSecurity in your professional requirements currently?
2. Do you have plans to change this??
3. Are there any specific detailed requirements
4. Is there any quantification of how much CyberSecurity there should be?
5. Any other comments.

NB: bottom of age 3 reads “taking into account all relevant technical, legal, social, cultural, economic, and environmental issues and respecting the need for sustainability” — in the light of GDPR, this would seem to imply a certain amount of CyberSecurity!

2 Publishing Venues

IT Now Being pursued, let by TomP.

CEP A UK focused conference (not necessarily a bad thing).

11 October 2019 Deadline for abstracts

18 October 2019 Deadline for full papers

SIGCSE 2020 Main papers are closed, but there may be posters.

ITiCSE See <https://iticse.acm.org/ITiCSE2020/> — apparently no dates.

Koli 2019 closed 5 August. Presumbaly 2020 will be similar.
